DCWRE Fall Training Workshop

November 8th, 2026

8:30 am to 3:30 pm

At the Collette Education Center

35 Commerce Way, Dover

Guest Speaker Peggy Hentz will present Rabies Vector Species and how to care for them. A wildlife rehabilitator since 1991, Peggy brings enthusiasm and comedy to all of her presentation topics. She is the Founder/Director of the Red Creek Wildlife Center, and a member of the Pennsylvania Rehabilitation and Education Advisory Council. She is the author of the "Wildlife Capture and Transport Manual" which has been accepted by the Pennsylvania Game Commission and New Jersey Fish and Wildlife as the states' guidelines for people permitted to respond to wildlife emergencies. Peggy also authored "Rescuing Wildlife, A Guide to Injured and Orphaned Animals".

Breakout Sessions will include different topics including building your own incubator, subcutaneous fluid administration, and tips on feeding the different species in your care.

New to Wildlife Rehab? We've got you covered. A special training featuring DCWRE's Rehabilitation Manual will start you on your way!

Registration must be paid in advance to hold your spot.

Members - $25

Non-Members - $30

Light breakfast and lunch included.
